

Infinite Campus

Infinite Campus (IC) is a Student Management System (SMS) utilized by Bishop Kearney. It is a tool used by teachers, students, and parents. IC contains information about each student including contact information, grades, homework assignments, and much more. This system is also used by BK to send information via email, text, phone IC inbox. Bishop Kearney strongly encourages parents to use IC to maximize your involvement in your child's education. This is a great way for Bishop Kearney to communicate with parents/guardians. Infinite Campus can be accessed through the following link:

https://nycloud1.infinitecampus.org/campus/portal/bishop_kearney.jsp

This link is located on the bottom page of the Bishop Kearney website (bkhs.org)

[There is a mobile app available. Just search for Infinite Campus in the App store (Android and Apple compatible available)] Each parent/guardian is given a username and password to IC. The username and password is generic and Bishop Kearney strongly suggests that each user change the password to protect the security of the student's information. By accessing IC, each parent/guardian agrees to abide by all FERPA and HIPAA laws as they pertain to student information.

Username: First letter of the user's first name and entire last name (i.e. John Smith is jsmith)

Password: 125Kings (no spaces and capital "K")

Some usernames may be modified depending on all users. If the username is not found please use first two letters of first name and entire last name (i.e. John Smith is josmith)

Once a user has successfully logged into IC, Bishop Kearney recommends taking the following actions:

- User Account:
 - Account Settings (change password)
 - Contact Preferences (modify based on personal preference)
 - Notification Settings (modify based on personal preferences)
- Navigate and become familiar with the entire site
- Email any questions to Keith Miller at kmiller@bkhs.org
