

## A BRIEF LIST OF PRACTICAL NECESSITIES AT BKHS

All articles of personal bedding, blankets, linens, etc. should be plainly and permanently marked with the owner's name.

Our living situation here is one which does not necessitate either large sums of money or valuable possessions. We cannot forbid the use of expensive equipment or the possession of too much cash, but we cannot be responsible for their loss. BKHS does provide door locks on every dormitory room for security, but it is recommended to have a small lock box for valuables.

Each room is furnished by the School with the basic necessities. There is also ample provision for decoration and electrical devices, so we ask that occupants of these rooms do not tape, nail, or tack their hangings onto, or into, the walls or doors. We request non-permanent adhesives. As mandated by fire safety regulations, refrigerators, TV sets, electric heaters, popcorn poppers, hot-pots, game-type systems, and large fans are prohibited. For details about personal computers, please refer to our Director of Technology, Mike McDermott.

Don't bring more than you need! Storage space is minimized by new fire regulations and none of our rooms are large enough to accommodate superfluous items.

### CHECK LIST

You will need the following items:

- |   |  |
|---|--|
